## CONTENTS

1 INTRODUCTION  
   1.1 PREAMBLE  
   1.2 PROBLEMS BEING FACED BY URBAN LOCAL BODIES  
   1.3 NEED FOR A MANUAL ON SOLID WASTE MANAGEMENT  
   1.4 CONSTITUTION OF THE EXPERT COMMITTEE & METHODOLOGY ADOPTED  

2 PRINCIPLES OF MUNICIPAL SOLID WASTE MANAGEMENT  
   2.1 INTRODUCTION  
      2.1.1 Solid Waste Generation  
      2.1.2 Environmental Impact of Solid Waste Disposal on Land  
      2.1.3 Objective of Solid Waste Management  
   2.2 PRINCIPLES OF MUNICIPAL SOLID WASTE MANAGEMENT  
      2.2.1 Waste Reduction  
      2.2.2 Effective Management of Waste  
      2.2.3 Functional Elements of Municipal Solid Waste Management  
   2.3 HIERARCHY OF WASTE MANAGEMENT OPTIONS  
   2.4 WASTE MINIMISATION  
   2.5 RESOURCE RECOVERY THROUGH MATERIAL RECYCLING  
      2.5.1 Sorting at Source  
      2.5.2 Centralised Sorting  
      2.5.3 Sorting Prior to Waste Processing or Landfilling  
   2.6 RESOURCE RECOVERY THROUGH WASTE PROCESSING  
      2.6.1 Biological Processes  
      2.6.2 Thermal Processes  
      2.6.3 Other Processes  
   2.7 WASTE TRANSFORMATION (WITHOUT RESOURCE RECOVERY) PRIOR TO DISPOSAL  
      2.7.1 Mechanical Transformation  
      2.7.2 Thermal Transformation
3. COMPOSITION AND QUANTITY OF SOLID WASTE

3.1 INTRODUCTION

3.1.1 Terminology and Classification

3.1.2 Variations in Composition and Characteristics

3.2 DEFINITIONS AND CLASSIFICATION OF SOLID WASTES

3.2.1 Definitions

3.2.2 Classification

3.3 COMPOSITION, CHARACTERISTICS AND QUANTITIES

3.3.1 Need for Analysis

3.3.2 Field Investigations

3.3.3 Number of Samples to be collected

3.3.4 Collection of Samples of Solid Waste

3.3.5 Composition and Characteristics

3.3.5.1 Characteristics of Municipal Solid Waste in Indian Urban Centres

3.3.6 Quantities

3.3.6.1 Per Capita Quantity of Municipal Solid Waste in Indian Urban Centres

3.3.6.2 Estimation of Future Per Capita Waste Quantity

3.3.6.3 Relation between Gross National Product and Municipal Solid Waste Generation

3.3.6.4 Rate of Increase Based on Experience in Other Cities

3.3.6.5 Seasonal Variations

3.3.7 Physical Characteristics

3.3.7.1 Density
3.3.7.2 Moisture Content 52
3.3.7.3 Size of Waste Constituents 52
3.3.7.4 Calorific Value 52
3.3.8 Chemical Characteristics 53
3.3.8.1 Classification 53

3.4 CONCLUSION 55

4. CONSTRUCTION AND DEMOLITION WASTE 56
4.1 INTRODUCTION 56
4.2 CHARACTERISTICS 57
4.3 STORAGE OF CONSTRUCTION AND DEMOLITION WASTE 58
4.4 COLLECTION AND TRANSPORTATION 59
4.5 RECYCLING AND REUSE 59
4.6 DISPOSAL 60
4.7 PLANNING AND MANAGEMENT ASPECTS 60
4.8 INSTITUTIONAL AND REGULATORY ASPECTS 61

5. SLAUGHTER HOUSE WASTE AND DEAD ANIMALS 63
5.1 INTRODUCTION 63
5.2 MAGNITUDE OF THE PROBLEM 63
5.3 CLASSIFICATION 66
5.4 OPERATIONS DURING SLAUGHTERING OF ANIMALS 66
5.4.1 Present Scenario 66
  5.4.1.1 Slaughtering 66
  5.4.1.2 Bleeding 67
  5.4.1.3 Dressing 67
  5.4.1.4 Evisceration 67
5.5 MEASURES PROPOSED TO IMPROVE THE SLAUGHTER HOUSE WASTE MANAGEMENT 67
  5.5.1 Liquid Waste/Effluent 67
  5.5.2 Collection of Blood 68
  5.5.3 Improved Method of Dressing 68
  5.5.4 Evisceration 68
  5.5.5 Safe Disposal of Waste Products 68
  5.5.6 Odours Control 69
  5.5.7 Modernization of Slaughter House 69
5.5.8 Curbing Activities of Illegal Slaughtering of Animals 69
5.5.9 Provision of Dry Rendering Plants 70
5.6 CONCLUSION 70

6. INDUSTRIAL SOLID WASTE 71

6.1 INTRODUCTION 71

6.2 THE PROBLEMS 72

6.3 INDUSTRIAL SOLID WASTE 72

6.4 DESCRIPTION OF IMPORTANT INDUSTRIAL SOLID WASTE 73
  6.4.1 Coal Ash 73
  6.4.2 Integrated Iron & Steel Plant Slag 74
  6.4.3 Phosphogypsum 74
  6.4.4 Red Mud 74
  6.4.5 Lime Mud 75
  6.4.6 Waste Sludge and Residues 75
  6.4.7 Potential Reuse of Solid Wastes 75

6.5 WASTE MANAGEMENT APPROACH 75
  6.5.1 Prevention – A Waste Minimization Approach 75
  6.5.2 Waste Management at Source 80
  6.5.3 Cutting down waste generation at Source 80
  6.5.4 Recycle and Reuse of wastes generated 80
  6.5.5 Waste Minimization 80
  6.5.6 Treatment and disposal of residual waste 81

6.6 AREA OF APPLICATION OF SOME IMPORTANT INDUSTRIAL WASTES 81

6.7 CURRENT PRACTICE OF INDUSTRIAL SOLID WASTE MANAGEMENT 83
  6.7.1 Collection and Transport of Wastes 83
  6.7.2 Storage and Transportation 83
  6.7.3 Disposal of Industrial Solid Waste 84

6.8 HEALTH CONSEQUENCES OF POOR INDUSTRIAL WASTE DISPOSAL 84

6.9 COLLECTION, STORAGE, TREATMENT AND DISPOSAL OF WASTES 86
  6.9.1 Waste Segregation 86
6.9.2 Collection, Storage and Transport 86
6.9.3 Combined Treatment Facilities 87
6.9.4 Disposal Methods 87
   6.9.4.1 Landfill 92
   6.9.4.2 Incineration 100
   6.9.4.3 Manifest System 103
   6.9.4.4 Post Treatment 103
   6.9.4.5 Back-Transport 105
6.9.5 Monitoring 105
6.9.6 Record Keeping 110

6.10 LEGISLATION FOR MANAGEMENT OF HAZARDOUS WASTE AND CATEGORISATION OF HAZARDOUS WASTE 113

6.11 HANDLING OF HAZARDOUS CHEMICALS 113

6.12 INDUSTRIAL LOCATION 114

6.13 MANAGEMENT OF INDUSTRIAL SOLID CO-ORDINATION (SPCBs AND LOCAL BODIES) 114

7. BIOMEDICAL WASTE 116

7.1 INTRODUCTION 116
   7.1.1 Linkage of Bio-medical Waste Management with Municipal waste management 118

7.2 ASSESSMENT OF CURRENT SITUATION 119
   7.2.1 Waste Generation 119
      7.2.1.1 Health care Establishments 119
      7.2.1.2 Whole town/city 121
   7.2.2 Current Practices 122
   7.2.3 Allocation of Responsibilities 123

7.3 BASIC ISSUES 123
   7.3.1 Management Issues of Bio-medical Waste Management 123
   7.3.2 Current Issues in Management of Health Care Waste 123

7.4 LEGAL ASPECTS AND ENVIRONMENTAL CONCERN 124
   7.4.1 Biomedical Waste (Management and Handling) Rules, 1998 124
   7.4.2 Environmental Concern 125

7.5 WASTE IDENTIFICATION AND WASTE CONTROL PROGRAMME FOR THE HEALTH CARE ESTABLISHMENTS 126
7.5.1 Identification of various components of the waste generated 126
7.5.2 An exercise in Waste Control Programme 126

7.6 WASTE STORAGE 127
7.6.1 Recommended labelling and Colour coding 127
7.6.2 Segregated Storage in separate containers(at the point of generation) 128
7.6.3 Certification 128
7.6.4 Common/Intermediate Storage Area 129
7.6.5 Parking lot for collection vehicles 129

7.7 HANDLING AND TRANSPORTATION 129
7.7.1 Collection of Wastes inside the hospital/Health care Establishment 129
7.7.2 Transportation of Segregated Waste inside the premises 130
7.7.3 Collection and Transportation of waste for small units 130
7.7.4 Transportation of Waste Outside 131

7.8 WASTE TREATMENT AND DISPOSAL : THE RULES AND THE AVAILABLE OPTIONS 131
7.8.1 Incineration 132
7.8.2 Autoclave Treatment 132
7.8.3 Hydroclave Treatment 133
7.8.4 Microwave Treatment 133
7.8.5 Chemical Disinfection 134
7.8.6 Sanitary and Secured Landfilling 134
7.8.7 General Waste 135

7.9 COMMON TREATMENT/DISPOSAL FACILITY 136
7.9.1 Establishment of the facility 136
7.9.2 Tie up of health care set ups 137
7.9.3 Private Sector Participation 138

7.10 OPERATION AND MAINTENANCE 138

7.11 OCCUPATIONAL HAZARDS AND SAFETY MEASURES 138
7.11.1 Occupational Hazards 139
7.11.2 Safety measures for the medical and para-medical staff 139
7.11.3 Safety measures for the cleaning and transportation staff 139

7.12 FINANCIAL ASPECTS 140

7.13 TRAINING AND MOTIVATION 140
7.13.1 Training modules for different level of staff 141
7.13.2 Incentives and Motivation
7.13.3 Awareness Generation
7.14 PLANNING ELEMENTS
7.14.1 Planning Inside the Health Care Establishment Premises
7.14.2 Planning Inside the Health Care Establishment
7.14.3 Relation to Overall Town Planning
7.14.4 Examples
7.15 MANAGEMENT ASPECTS
7.15.1 Organisational set up
7.15.2 Administrative and Managerial Aspects
7.16 ANIMAL WASTE

8. SORTING AND MATERIAL RECOVERY
8.1 INTRODUCTION
8.2 OBJECTIVES OF SORTING
8.3 STAGES OF SORTING
8.4 SORTED WASTE STREAMS
8.5 SORTING OPERATIONS
8.6 CURRENT STATUS
8.6.1 Primary and Secondary / Tertiary Sorting
8.6.2 Primary Sorting At Source
8.6.3 Primary Sorting At the Community Bin (Municipal Bin)
8.6.4 Primary Sorting At Landfill
8.6.5 Secondary / Tertiary Sorting
8.6.6 Occupational Health
8.7 TOXICITY RELATED HAZARDS
8.7.1 Hazardous Substance Containers
8.7.2 Household Batteries and Other Toxic Wastes
8.7.3 Infectious Wastes
8.8 NON-RECYCLABLE PACKAGING
8.9 PROBLEMS AND DESIRABLE CHANGE
8.9.1 Long-Term Desirable Change
8.10 GUIDELINES FOR SORTING FOR MATERIALS RECOVERY
8.10.1 General
8.10.2 At the Source
8.10.3 At the Community Bin (Municipal Bin)/Waste Storage Depot/Transfer Station
8.10.4 Intermediate Sorting at Central Sorting Facility
8.10.5 Sorting at Waste Processing Site
8.10.6 Sorting Prior to Landfilling

9. STORAGE OF WASTE AT SOURCE

9.1 INTRODUCTION

9.2 PRESENT SCENARIO
9.2.1 No Storage at Source – Waste Deposited on the Streets
9.2.2 Storage of waste, wherever practised, does not synchronize with primary collection system

9.3 MEASURES TO IMPROVE THE SYSTEM
9.3.1 Types of Wastes to be put in the bin meant for food waste and Bio-degradable Waste
9.3.2 Types of Recyclable and Other Non-Biodegradable Waste to be kept separately
9.3.3 List of Some Domestic Hazardous Waste

9.4 STEPS TO BE TAKEN BY URBAN LOCAL BODIES
9.4.1 For Storing Household Waste
9.4.2 For Storing Waste from Shops/Offices/Institutions/Workshops etc.
9.4.3 For Storing Waste from Hotels and Restaurants
9.4.4 For Storing Vegetable/Fruit Markets Waste
9.4.5 Meat and Fish Markets
9.4.6 Street Food Vendors
9.4.7 Marriage Halls/Kalyan Mandaps/Community Halls etc.
9.4.8 Hospitals/Nursing Homes/Pathological Laboratories/Health are Centres/Establishments etc.
9.4.9 Construction & Demolition Wastes
9.4.10 Garden Waste

9.5 STORAGE OF RECYCLABLE WASTE

9.6 MEASURES TO BE TAKEN BY THE LOCAL BODIES TOWARDS SEGREGATION OF RECYCLABLE WASTE

9.7 PROVISION OF LITTER BINS ON THE STREETS, PUBLIC PLACES ETC.
9.8 PROVISION OF SPECIAL CONTAINERS FOR STORAGE OF DOMESTIC HAZARDOUS AND TOXIC WASTES

10. PRIMARY COLLECTION OF WASTE

10.1 INTRODUCTION
10.2 PRESENT SCENARIO
10.3 MEASURES NECESSARY TO IMPROVE THE SERVICE
10.4 STEPS TO BE TAKEN
10.5 ARRANGEMENTS TO BE MADE FOR PRIMARY COLLECTION
10.6 TOOLS & EQUIPMENT
  10.6.1 Hand Carts
  10.6.2 Tricycles
  10.6.3 Community Bin Carrier
10.7 METHODS OF PRIMARY COLLECTION OF WASTE
  10.7.1 Door step collection through containerized handcarts
  10.7.2 Role of Sweeper
  10.7.3 Collection through motorised vehicles
  10.7.4 Primary Collection of Waste from Societies/Complexes
  10.7.5 Collection of Waste from Slums
  10.7.6 Collection at the door in posh residential areas
  10.7.7 Collection of duly segregated recyclable/non-bio-degradable waste from Households
10.8 ENCOURAGEMENT TO NGO’S/PRIVATE SECTOR
10.9 COLLECTION OF WASTE FROM SHOPS AND ESTABLISHMENTS
10.10 COLLECTION OF BIO-MEDICAL WASTE
10.11 COLLECTION OF HOTEL AND RESTAURANT WASTE
10.12 VEGETABLE, FRUIT, MEAT AND FISH MARKETS WASTE
10.13 COLLECTION OF GARDEN WASTE
10.14 COLLECTION OF WASTE FROM MARRIAGE HALLS/KALYAN MANDAPS/COMMUNITY HALLS ETC.
10.15 COLLECTION OF CONSTRUCTION AND DEMOLITION WASTE
10.16 DAIRY AND CATTLE-SHED WASTE
10.17 COLLECTION OF DOMESTIC HAZARDOUS & TOXIC WASTE

11. STREET CLEANSING

11.1 INTRODUCTION

11.2 SOURCES
   11.2.1 Natural Wastes
   11.2.2 Road Traffic Wastes
   11.2.3 Behavioural Wastes

11.3 MANUAL CLEANSING OF STREET AND PUBLIC PLACES
   11.3.1 Frequency of Street Cleansing

      11.3.1.1 Cleansing of Streets on a daily basis including Sundays & Public Holidays

11.4 CLASSIFICATION OF STREETS
   11.4.1 Sweeping Methods
   11.4.2 Work-norms for Street Sweepers
   11.4.3 Working Hours

11.5 EQUIPMENT USED FOR STREET SWEEPING
   11.5.1 Brooms
   11.5.2 Shovels
   11.5.3 Container for Transfer of Sweepings
   11.5.4 Vehicles and Transfer Facilities
   11.5.5 Hand-Carts/Tricycles

      11.5.5.1 Specifications for Polyethylene Container to be used in the Hand cart
      11.5.5.2 Material of Manufacture

11.6 CLEANSING OF SURFACE DRAINS

11.7 REMOVAL OF SILT FROM UNDERGROUND DRAINS/ MANHOLES

11.8 MECHANICAL SWEEPING

11.9 INSTITUTIONAL ARRANGEMENT FOR MANUAL SWEEPERS

11.10 LEGISLATION

12. WASTE STORAGE DEPOTS

12.1 INTRODUCTION

12.2 THE PRESENT SCENARIO
12.3  MEASURES TO BE TAKEN TO IMPROVE THE SITUATION 220
12.4  STEPS TO BE TAKEN BY THE LOCAL BODY 222
12.5  OPTIONS 222
12.6  CRITERIA FOR PLACING LARGE SIZE CONTAINERS 226
       AT THE WASTE STORAGE DEPOTS
12.7  MAINTENANCE OF WASTE STORAGE DEPOTS/ 227
       CONTAINERS
13.   TRANSPORTATION OF WASTE 228
13.1  INTRODUCTION 228
13.2  THE PRESENT SCENARIO 228
       13.2.1  Inefficient and unscientific manual loading of waste 228
       13.2.2  Irregular Transportation 230
       13.2.3  Underutilization of Fleet of Vehicles 231
       13.2.4  Open Trucks Cause Nuisance 231
       13.2.5  Non-Routing of Vehicles 232
       13.2.6  Transportation of Waste from Hotels/Restaurants/Hospitals/
               Construction Site etc. 232
13.3  MEASURES TO BE TAKEN TO IMPROVE THE SYSTEM 233
13.4  STEPS TO BE TAKEN TO MEET THE ABOVE OBJECTIVES 233
       13.4.1  Domestic/Trade/Institutional Waste 233
       13.4.2  Routing of Vehicles 234
       13.4.3  Use of Vehicles in Two Shifts 234
       13.4.4  Type of Vehicles to be used 234
       13.4.5  Bio-Medical Waste from Hospitals/Nursing Homes/Health
               Care Establishments etc. 237
       13.4.6  Transportation of Waste from Hotels & Restaurants 237
       13.4.7  Transportation of Construction Waste and Debris 238
       13.4.8  Transportation of Waste from Narrow Lanes 239
13.5  SETTING UP OF TRANSFER STATION 239
13.6  LIFTING OF WASTE FROM THE TRANSFER STATION 239
13.7  WORKSHOP FACILITY FOR VEHICLE MAINTENANCE 239
13.8  FLEET OF VEHICLES TO BE MAINTAINED 241
13.9  PARKING OF WORKSHOP VEHICLES 242
14. **COMPOSTING**

14.1 **INTRODUCTION**

14.2 **PRINCIPLES OF COMPOSTING – MANUAL AND MECHANISED METHODS**

14.3 **INDORE & BANGALORE METHODS OF COMPOSTING**

14.3.1 Bangalore Method

14.3.2 Indore Method

14.3.3 Comparison of the Methods

14.3.4 Windrow Composting

14.4 **FACTORS AFFECTING THE COMPOSTING PROCESS**

14.4.1 Organisms

14.4.2 Use of Cultures

14.4.3 Moisture

14.4.4 Temperature

14.4.5 C/N Ratio

14.4.6 Aeration

14.4.7 Addition of sewage and sewage sludge

14.5 **CONTROL OF COMPOSTING PROCESS**

14.5.1 Properties of Compost

14.6 **MECHANICAL COMPOSTING**

14.6.1 Unit Processes

14.6.2 Experience in India

14.6.3 Composting plants for Indian Municipal Solid Waste

14.6.3.1 Assessment & Development of Market

14.6.3.2 Selection of Site

14.6.3.3 Pilot Studies

14.6.3.4 Flowsheet

14.6.3.5 Environmental Control

15. **ENERGY RECOVERY FROM MUNICIPAL SOLID WASTE**

15.1 **INTRODUCTION**

15.2 **BASIC TECHNIQUES OF ENERGY RECOVERY FROM MSW**

15.2.1 Parameters affecting Energy Recovery
15.2.2. Assessment of Energy Recovery Potential 265

15.3 TECHNOLOGICAL OPTIONS 266

15.3.1 Anaerobic Digestion (AD) 266

15.3.1.1 Main Steps in Anaerobic Treatment of MSW 268

15.3.1.2 Different Designs and Configurations of AD Systems 268

15.3.2 Landfill Gas Recovery 270

15.3.2.1 Selection of Existing Landfill Sites for Gas Recovery 276

15.3.2.2 Assessment of Gas Production Potential 276

15.3.3 Incineration 279

15.3.3.1 Different types of Incineration Plants 280

15.3.3.2 Indian scenario for Adoption of Incineration Technology 285

15.3.4 Pyrolysis/Gasification 286

15.3.4.1 Different Types of Pyrolysis/Gasification Systems 287

15.3.4.2 Other Emerging Processes 290

15.3.5 Advantages and Disadvantages of different Technological Options 291

15.3.6 Land Requirements 293

15.4 UTILIZATION OF BIOGAS/LANDFILL GAS 294

15.4.1 Local Gas Use 294

15.4.2 Pipeline Injection 295

15.4.3 Electricity Generation 295

15.4.4 Purification of Biogas 297

15.4.4.1 Chemical Processes 297

15.4.4.2 Bio-Chemical Processes 297

15.4.4.3 Summary of Gas Cleaning Methods 298

15.5 ENVIRONMENTAL MANAGEMENT OF WASTE-TO-ENERGY PROJECTS 299

15.5.1 Environmental Pollution Control (EFC) Measures for Incineration Plants 299

15.5.2 EPC Measures for Anaerobic Digestion Plants 303

15.5.3 General Environmental Concerns and Control Measures 303

15.6 PLANNING AND EXECUTION OF WASTE-TO-ENERGY PROJECTS 303

15.6.1 Basic Factors in Planning and Execution 305

15.6.1.1 Cost of Collection & Transportation of Waste 305

15.6.1.2 Scale of Treatment 305

15.6.1.3 Local Conditions/Existing Waste Management Practices 306

16.10 TREATMENT FOR RECOVERY OF USEFUL PRODUCTS
16.11 SUMMARY

17. LANDFILLS

17.1 INTRODUCTION
17.1.1 Definitions
17.1.2 Landfilling of Municipal Solid Waste

17.2 ENVIRONMENTAL IMPACT AND ITS MINIMISATION

17.3 ESSENTIAL COMPONENTS

17.4 SITE SELECTION
17.4.1 Locational Criteria
17.4.2 Search Area
17.4.3 Development of A List of Potential Sites
17.4.4 Data Collection
17.4.5 Site-Walk-Over and Establishment of Ground Truths
17.4.6 Preliminary Boreholes and Geophysical Investigation
17.4.7 Assessment of Public Reaction
17.4.8 Selection of Few Best-Ranked Sites
17.4.9 Environmental Impact Assessment
17.4.10 Final Site Selection

17.5 SITE INVESTIGATION AND SITE CHARACTERISATION
17.5.1 Subsoil Investigation
17.5.2 Ground Water/Hydrogeological Investigation
17.5.3 Topographical Investigation
17.5.4 Hydrological Investigation
17.5.5 Geological Investigation and Seismic Investigation
17.5.6 Environmental Investigation
17.5.7 Traffic Investigation
17.5.8 Waste Characterisation
17.5.9 Leachate Investigation

17.6 LANDFILL PLANNING AND DESIGN
17.6.1 Design Life
17.6.2 Waste Volume and Landfill Capacity
17.6.3 Landfill Layout
17.6.4 Landfill Section
17.6.5    Phased Operation 346
17.6.6    Estimation of Leachate Quality and Quantity 348
  17.6.6.1  Leachate Quality 350
  17.6.6.2  Leachate Quantity 352
17.6.7    Liner System 354
17.6.8    Leachate Drainage, Collection and Removal 358
17.6.9    Leachate Management 361
17.6.10  Estimation of Landfill Gas Quality and Quantity 362
17.6.11  Landfill Gas Management 364
17.6.12  Final Cover System 364
17.6.13  Surface Water Drainage System 366
17.6.14  Slope Stability Aspects and Seismic Aspects 369
17.6.15  Materials Balance 371
17.6.16  Site Infrastructure 371
17.6.17  Landfill Equipment 372
17.6.18  Design of Environmental Monitoring System 373
17.6.19  Closure and Post-Closure Maintenance Plan 376
17.6.20  Waste Acceptance Criteria 376

17.7 DESIGN AND CONSTRUCTION OF LANDFILL LINERS 377

17.7.1  Compacted Clays and Amended Soils 378
  17.7.1.1  Specifications 379
  17.7.1.2  Design Process 379
  17.7.1.3  Laboratory Studies 380
  17.7.1.4  Field Trail Test Pads 382
  17.7.1.5  Construction Aspects 382
  17.7.1.6  Construction Control 385

17.7.2  Geomembranes 385
  17.7.2.1  Specifications 385
  17.7.2.2  Design Aspects 387
  17.7.2.3  Construction/Installation of Geomembranes 387
  17.7.2.4  Quality Control Before and During Geomembrane Installation 388

17.7.3  Drainage Blanket 389
17.8 CONSTRUCTION AND OPERATIONAL PRACTICE

17.8.1 Site Development

17.8.2 Site Procedures

17.8.2.1 Record Keeping

17.8.2.2 Waste Inspection Procedure

17.8.3 Phase Development

17.8.4 Phase Operation

17.8.4.1 Daily Waste Filling Plan and Demarcation at Site

17.8.4.2 Waste Discharge and Inspection

17.8.4.3 Waste Placement (Spreading)

17.8.4.4 Waste Compaction

17.8.4.5 Daily Cover

17.8.4.6 Pollution Prevention During Operation

17.8.4.7 Landfill Fire Management

17.8.4.8 Landfill Safety Aspects

17.8.5 Phase Closure

17.8.6 Landfill Closure

17.9 POST-CLOSURE STABILISATION, OPERATION AND CARE

17.9.1 Long-Term Vegetative Stabilisation

17.9.2 Operation After Closure

17.9.3 Landfill Monitoring

17.9.4 Periodic Inspection and Maintenance

17.10 LANDFILL QUALITY ASSURANCE AND QUALITY CONTROL

17.11 LANDFILLING COSTS

17.12 MANPOWER REQUIREMENTS

17.13 TYPICAL EXAMPLE (PRELIMINARY DESIGN)

17.14 REMEDIATION OF OLD LANDFILL SITES

18. COMMUNITY PARTICIPATION

18.1 INTRODUCTION

18.2 STRATEGY OF COMMUNITY PARTICIPATION

18.2.1 Identification of groups of people to be addressed

18.2.1.1 Residential Areas

18.2.1.2 Market / Commercial Areas/Offices/Bank etc.
18.2.2 Identification of the areas in SWM where community participation is essential

18.2.2.1 People's participation is essential in following areas

18.2.3 Reach the community

18.2.3.1 Identification of problems

18.2.3.2 Finding out optional solution

18.2.3.3 Consult community on options available

18.2.3.4 Workout the strategy of implementation

18.3 SYSTEM OF WASTE MANAGEMENT TO BE ADOPTED

18.3.1 Public information, Education, Communication programs (IEC)

18.4 MEASURES TO BE TAKEN TO BRING ABOUT CHANGE IN PUBLIC BEHAVIOR

18.4.1 Promote “Reduce, Re-use and Re-cycle (R-R-R)” of waste

18.4.2 Promote Public Participation in SWM systems adopted

18.4.3 Provide Information Hot-line

18.4.4 Public Education

18.4.4.1 Group Education

18.4.4.2 Mass Education

18.5 ENFORCEMENT

19. INSTITUTIONAL ASPECTS & CAPACITY BUILDING

19.1 INTRODUCTION

19.2 DECENTRALIZATION OF ADMINISTRATION

19.2.1 Ward Level Administration

19.2.2 Zonal Administration

19.2.3 City Level Administration

19.3 DELEGATION OF POWERS

19.4 ORGANIZATIONAL SET UP/PUBLIC HEALTH ENGINEERS

19.4.1 Towns below 1,00,000 population

19.4.2 Cities between 1 and 2 lacs population

19.4.3 Cities having population between 2 and 5 lacs

19.4.4 Cities having population between 5 and 20 lacs

19.4.5 Cities having population between 20 and 50 lacs

19.4.6 Cities above 50 lacs population
19.5  HUMAN RESOURCES DEVELOPMENT 426
  19.5.1  Training 426
    19.5.1.1  Special Training to Unqualified Staff 426
    19.5.1.2  Refresher Courses for all Levels of Staff 426
    19.5.1.3  Exposure to Municipal Commissioner/Chief Executives 426
    19.5.1.4  Exposure to Elected Members 427
    19.5.1.5  Design SWM Courses 427
  19.5.2  Promotional Opportunities 427

19.6  WORK NORMS 427
  19.6.1  Norms of Work for Street Sweepers 428

19.7  THE ENTIRE ADMINISTRATION OF SWM DEPARTMENT TO BE UNDER ONE UMBRELLA 429

19.8  INTER-DEPARTMENTAL CO-ORDINATION 430

19.9  ENcouragement to NGOs AND Waste Collector Cooperatives 430

19.10  VOLUNTARY ORGANISATION/NGO/Private Sector Participation 431

19.11  Incentives to the Private Sector 431

19.12  Levy of Administrative Charges 431

19.13  Mobile Sanitation Courts 432

19.14  Documentation of Best Practices 432

19.15  Redressel of Public Grievances 432

20.  PROSPECTS OF PRIVATE SECTOR PARTICIPATION 433

20.1  INTRODUCTION 433

20.2  Present Scenario 433

20.3  Measures to be Taken by Local Bodies 433

20.4  Area where Privatization can be Attempted 434

20.5  Method of Private Sector Involvement in Doorstep Collection of Variety of Wastes 435

20.6  Incentives to Private Sector 435

20.7  Some Examples 436

21.  ECONOMIC AND FINANCIAL CONSIDERATIONS 438

21.1  INTRODUCTION 438

21.2  Present Financial Provision 439
21.3 EXPENDITURE AND COST OF SWM 442
21.4 PROJECT LIFE CYCLE ANALYSIS 444
21.5 NON-MARKET EXTERNALITIES IN SWM 445
21.6 LACK OF FINANCIAL PLANNING FOR SWM 445
21.7 FINANCIAL MANAGEMENT PLAN 446
    21.7.1 Principle Elements of the Financial Management Plan 446
    21.7.2 Determination of Tax/Cess Rates 447
        21.7.2.1 Determination of the Rate of SWM Tax 448
    21.7.3 Solid Waste Management Benefit Tax 449
21.8 ACTION PLAN 449
21.9 ADDITIONAL SOURCES OF FUNDS 451
22. ENVIRONMENTAL AND HEALTH IMPACT ASSESSMENT 454
22.1 INTRODUCTION 454
    22.1.1 Need for Environmental and Health Impact 455
22.2 THE SIGNIFICANCE OF ENVIRONMENTAL AND HEALTH IMPACT ASSESSMENT(EHIA) 457
    22.2.1 Identification, Interpretation & Management of EHIA 459
22.3 TYPES OF ENVIRONMENTAL AND HEALTH HAZARDS 461
22.4 ENVIRONMENTAL AND HEALTH HAZARDS IDENTIFICATION 463
22.5 INITIAL ENVIRONMENTAL AND HEALTH EXAMINATION (IEHE) 464
    22.5.1 Vulnerable Communities 466
    22.5.2 Environmental Factors 468
    22.5.3 Responsibilities of Protection Agencies 469
22.6 PROJECTS REQUIRING DETAILED ENVIRONMENTAL AND HEALTH IMPACT ASSESSMENT 470
    22.6.1 Components of EHIA 472
    22.6.2 Scope 472
    22.6.3 Steps involved in EHIA Studies 473
    22.6.4 Model Terms of Reference(s) for EHIA 473
22.7 EHIA STATEMENT 476
22.8 ENVIRONMENT AND HEALTH RISK MANAGEMENT 476
22.8.1 Environmental Management Plan
22.8.2 Health Risk Management
22.8.3 Risk to Human Life and Property
22.9 PUBLIC INFORMATION AND PARTICIPATION FOR EHIA
22.9.1 Awareness of public on the various aspects of environment and health surveillance
22.10 FINANCIAL ASPECTS
22.10.1 Suggested Investment

23. MANAGEMENT INFORMATION SYSTEM
23.1 INTRODUCTION
23.1.1 Objective
23.1.2 Need
23.2 GENERAL INFORMATION DATA
23.2.1 Salient Features of the City/Ward
23.2.2 General Information on SWM
23.2.2.1 Waste Generation
23.2.2.2 Staff Position
23.2.2.3 Waste Storage Depots
23.2.2.4 Transportation
23.2.2.5 Composition of Waste
23.2.2.7 Computerisation
23.2.2.8 Financial Aspects
23.3 Technical
23.3.1 Primary Collection
23.3.1.1 Population and Composition of Waste
23.3.1.2 Source of Generation
23.3.1.3 Manpower and Implements
23.3.1.4 Monitoring of Primary Collection Services
23.3.2 Secondary Collection
23.3.2.1 Transfer Stations
23.3.2.2 Transportation
23.3.3 Disposal
23.3.3.1 Options
23.3.3.2 Daily/Weekly Records
23.4 PROJECT MONITORING 501

23.5 PUBLIC AWARENESS & TRAINING 501
  23.5.1 Public Awareness 501
  23.5.2 Training to Ward Councilors 501
  23.5.3 Partnership Role for Public Awareness 501
  23.5.4 Mode of Implementing Public Awareness Programme 501
  23.5.5 Public Participation 502

23.6 INSTITUTIONAL ORGANIZATION 502

23.7 POLICY GUIDELINES 502

23.8 FINANCIAL AND ECONOMIC ASPECT 503

23.9 LEGAL ASPECTS 503

23.10 COMPLAINTS REDRESSAL 503

24 LEGAL ASPECTS 504

24.1 INTRODUCTION 504

24.2 PRESENT SCENARIO 504

24.3 PROPOSED LEGAL PROVISIONS 506
  24.3.1 Prohibition against littering the street or deposition of solid waste on the streets, open defecation etc. 506
  24.3.2 Duty of occupiers of premises to store solid waste at source of generation 506
  24.3.3 Duty of occupier not to mix recyclable/non-bio-degradable waste and domestic hazardous waste with food waste etc. 506
  24.3.4 Duty of Societies/Associations/Management of commercial complexes to clean their premises and to provide community bins 506
  24.3.5 Community Bins to be kept in good condition 507
  24.3.6 Duty of occupiers to deposit solid waste in community bins 507
  24.3.7 Duty of local body to provide and maintain “Waste Storage Depots” 507
  24.3.8 Duty of occupier of households/shops/establishment to hand over the recyclable material/non-bio-degradable waste to the waste collectors/waste purchasers/recyclers. 507
  24.3.9 Duty of occupier of households, shops and establishments to deposit domestic hazardous/toxic waste in special bins 508
24.3.10 Duty of local bodies to collect waste from community bins and to deposit it at Waste Storage Depots for onward transport

24.3.11 Duty of local bodies to clean all public streets, open public spaces and slum areas

24.3.12 Duty of local body to transport the waste stored at the waste storage depots regularly.

24.3.13 Duty of local body to arrange for processing of food/bio-degradable waste through appropriate technology and disposal of Rejects

24.3.14 Prohibition against deposition of building rubbish

24.3.15 Prohibition on disposal of carcasses etc.

24.3.16 Punishment for littering on streets

24.4 SOME EXAMPLES OF ENFORCEMENT WHICH HAVE GIVEN SALUTARY EFFECT

25. POLICY GUIDELINES

25.1 INTRODUCTION

25.2 POLICY FRAME WORK

25.3 ISSUES

25.4 MEASURES TO BE TAKEN

25.4.1 The Central Government

25.4.2 The State Government

25.4.2.1 Provide Legal Frame Work

25.4.2.2 Promote Financial Health of the Urban Local Bodies To meet obligatory duties

25.4.2.3 Grant of Land for Treatment Facility and Disposal of Waste

25.4.2.4 Identification of suitable land for Treatment and Disposal of Municipal Solid Waste in city’s Development Master Plan

25.4.2.5 Permit allotment of land to private sector for Setting up treatment facilities and landfill sites For waste disposal

25.4.2.6 Payment of Tipping Charges

25.4.2.7 Promote Recycling Industry
25.4.2.8 Provide Tax Benefits 516
25.4.2.9 Promote Use of Compost 516
25.4.2.10 Promote Energy Recovery, Power Generation etc. 516
   From MSW
25.4.2.11 Encourage Private Sector Participation 517
25.4.2.12 Develop IEC Material 517
25.4.3 The Urban Local Bodies 517
   25.4.3.1 Provision of Daily Service 517
   25.4.3.2 Segregation and Storage of Waste at Source 517
   25.4.3.3 Abolish open waste storage depots and other 518
      Inefficient waste storage devices
   25.4.3.4 Cost Recovery 518
   25.4.3.5 Levy of Sanitation tax to meet & cost of 518
      SWM services
   25.4.3.6 Public Private Partnership in SWM Services 518
   25.4.3.7 Private Sector Participation 518
   25.4.3.8 Provision of SWM Services in slums 519
   25.4.3.9 Allotment adequate funds for capital and revenue 519
      Expenditure
   25.4.3.10 Identification and allotment of suitable lands 519
      For treatment and waste disposal
   25.4.3.11 Human Resources Development 519
   25.4.3.12 Public Grievances Redressal Mechanism 519
   25.4.3.13 Enforcements 520
   25.4.3.14 Welfare of the Staff 520
25.5 POLICY ORDERS ISSUED BY SOME STATES 520
25.6 MUNICIPAL WASTE (MANAGEMENT & HANDLING) RULES 520
26. PREPARATION OF A MUNICIPAL SOLID WASTE 521
   MANAGEMENT PLAN 521
26.1 THE PLANNING PROCESS : DEFINITION 521
26.2 DESIGN PERIOD 521
26.3 POPULATION FORECAST 522
26.4 BASIC PLANNING MODEL 522
   26.4.1 Initial Planning 523
26.4.2 Problem Redefinition
26.4.3 Objectives and Consideration of Alternative Actions
26.4.4 Emerging Alternatives and Decisions
26.4.5 Plan Establishment

26.5 COORDINATION

26.6 PLAN OUTLINE

ANNEXURES

Annexure No.

A Conversion Factors 533
B List of Indian Standards relating to Solid Waste Management 536
1.1 Municipal Wastes (Management & Handling Rules, 1999) 538
5.1 Environment (Protection) Act, 1986 558
5.2 Guidelines for Financial Assistance for improvement of existing Slaughter Houses and establishment of Carcass & By-Product Utilisation Centres 584
5.2A Objectives for improvement of Slaughter Houses and Carcass & By-Product Utilisation Centres 587
5.2B Pattern of Funding for improvement of Slaughter Houses 588
5.2C Pattern of Funding for Carcass & By-Product Utilisation Centre 592
5.2D Proforma for Submitting the Proposals for Slaughter Houses & Carcass Utilisation Centres 594
5.3 Draft Guidelines for Sanitation in Slaughter Houses 597
6.1 List of Processes Generating Hazardous Wastes 605
6.2 Categories of Industries to be restricted for their operation in Non-Conforming areas 611
7.1 Solid Wastes – Hospitals – Guidelines for Management 613
7.2 Bio-Medical Waste (Management & Handling) Rules, 1998 618
7.3 List of States where Prescribed Authority has been set up for supervising the Implementation of the Bio-Medical Waste (Management & Handling) Rules 629
7.4 Comparison of Treatment Technologies for “Bio-Medical Waste” 630
7.5 Schematic of pit for deep burial of Cate Goryi-Bio-Medical Waste (based on Bio-Medical Waste Management Handling Rules) 632
12.1 The Specification for Construction of Waste Storage Depot 633
12.2 General Specification of 7 cu.mt. capacity Garbage Containers to be handled by 7 cu.mt. D.P. units 634
